IMPORT OF SUGAR INTO MYSORE STATE.

With a view to prohibiting such unauthorised import of sugar into the State, sugar has been now included in the Schedule to the Food-grains Import Control Order, 1949. The effect of this Order is that sugar manufactured by any process including sugar made in Vacuum Pan Factories from cane or gur or palmyrah jaggery as well as khandasari sugar, sugar candy (misri), bura and powdered jaggery (Mogadam Sugar) shall not be imported into the State except under a Permit issued by the Director of Food Supplies in Mysore, Bangalore.

With a view to remove this misconception, the position of this class of persons is clarified as noted below:—

Persons who have been registered as citizens of the United Kingdom are not foreigners for the purposes of the constitution. Citizens of the United Kingdom as well as of other countries in the Commonwealth will not, therefore, be deemed to be foreigners. They will be accorded the same treatment as hitherto, that is for the purpose of entering India. Such persons will be required to be in possession of national passports valid for entry into India, but will not be required to obtain visas, or Residential Permits for stay in India as foreigners.

In case the sale is not confirmed in the name of the highest bidder, the next highest bidder may be called upon to take up the lease and in that case, he shall abide by all the conditions prescribed herein for the highest bidder. The deposits of the next highest bidders will be retained until the question of confirmation of the sale is decided.

9. The successful bidders shall immediately after the close of the sale, credit into the Government Treasury, one-quarter of the total sale amount including the deposit already made together with the local Railway and other cesses, on the entire lease amount at the rates prevailing in the district. Such resales will be at the risk of the defaulting purchaser who will be liable to make good any loss that may result to Government but will have no claim to any surplus accruing therefrom. Such losses will be recoverable as an arrear of land revenue.

10. If the sale is not confirmed by the authority concerned all moneys paid will be refunded to the party.

11. Within fifteen days of the intimation of the confirmation of the sale the successful bidder shall execute an agreement with one or more sureties to the satisfaction of the District Forest Officer on a stamped paper of proper value procured at his own cost, and also furnish security deposit of Rs. 500 or one-quarter of the sale amount, whichever is less, for the due fulfilment of the conditions of the contract in the shape of Government Savings Bank Deposit. The recovery of security deposit will be waived in case the full sale amount together with cesses is paid in advance.

In default either to execute the agreement with the necessary sureties or to furnish the required security or both, the contract will be cancelled and the right resold, the defaulter being liable for any deficit in three-fourths of the original sale amount. (ii) A sample form of the agreement may be seen at any time in the District Forest Offices.

If a default arises in the payment of any instalment or interest on the due date, the contract shall immediately stand suspended and all produce collected and in storage or transit during such period of suspension be forfeited to Government. In spite of such suspension, if the instalments of interest overdue continue to remain unpaid for a period of one month the contract shall be cancelled and the right resold at the risk of the defaulter, who shall have no claim on the surplus accruing from such resale, but shall be liable to the loss arising therefrom, which shall be recovered as an arrear of land revenue under Section 79 of the Mysore Forest Act or any other law in force for the time being.

13. No concession of any kind will be shown to the contractor for loss on any account.

14. In the event of breach of any of these conditions, the lease will be cancelled or the security amount forfeited in whole or in part or both these penalties will be enforced at the discretion of the District Forest Officer, the Conservators of Forests, Shimoga and Mysore Circles, or the Chief Conservator of Forests, as the case may be. In the case of mere forfeiture of the deposit amount, in part or in full, the difference will be made good immediately by the contractor, and if not, the lease will be cancelled and resold at the risk of the original purchaser, who will be liable for any loss which will become recoverable as on arrear of land revenue but not participate in any profits.

15. Bidders are warned that no transfer or sub-letting of leases will be permitted.

Press Note.

According to the provisions of the Harvest Order, 1949, free movement of any rationed foodgrains from or into a rationed area within the State for *bona fide* consumption of a person or his family was prohibited. It was considered that such a restriction caused hardship to travellers arriving into the rationed areas on business, etc. Government have therefore in their Notification No. S. 8018—C. 73-49-87, dated the 28th March 1950 permitted a *bona fide* traveller to carry without a permit, foodgrains not exceeding two seers per adult and one seer per child for *bona fide* personal consumption from one rationed area to another rationed area or to any non-rationed area within the State and *vice versa*. Further, he is also allowed to carry, without a permit, foodgrains not exceeding ten seers in all for his personal consumption or for his family from one non-rationed area to another non-rationed area within the State.

(P.N. No. 3—3-4-1950—201-300)

Press Note.

For the last few months several reports are appearing in the Press on the alleged activities of some anti-social elements at Mayasandra and round about villages in Magadi Taluk, Bangalore District. Mayasandra has a population of about 1 000, Vokkaligars forming the majority while Jains, Adikarnatakas and a few Muslims form the minority. The main profession of the inhabitants of the village is agriculture and many of the Jains own garden lands.

There was unfortunately some trouble between the Vokkaligars and Jains for some time past resulting in local disturbances and clash between the two communities. Police help was rendered and the situation was brought under control. Some persons who are alleged to be at the bottom of these troubles and the rowdy activities in Mayasandra and surrounding villages have been proceeded against by the Police and charge sheets have been placed in Cr. No. 42—48-49 under Sections 147 and 144 of the Indian Penal Code in the [illegible] of the First Class Magistrate, Closepet, on 18th March [illegible] Sri Harthi Adirajaiah, a member of the Jain community of the place, has been doing a lot of propaganda work alleging atrocities by Vokkaligars and others and has been holding confere[illegible] State and passing resolutions to the effect that there has been no rule of law in these villages. He has also addressed several letters and sent printed pamphlets not only to this Government but also to the Government of India and members of the Jain community even outside the State as for instance those at Mangalore, seeking their sympathies in his propaganda work.

All the communications received from Sri H. Adirajaiah have been duly acknowledged from time to time by this Government and action when necessary has been taken also. His contention that he has not received any acknowledgments to his letters is not borne out by facts. He has also threatened that he would take to fasting in his grievances are not redressed.

Detailed investigations have been conducted as to the truth or otherwise of the allegations of Sri Harthi Adirajaiah and as recently as 13th March 1950 the Inspector-General of Police has also visited the Mayasandra Village and personally made enquiries. Sri Harthi Adirajaiah, it is reported, was not present at the time of the enquiry at the village. As far as enquiries go, Government feel that there has been gross exaggeration by him regarding the affairs of the village. No incidents have happened since the troubles referred to and necessary police arrangements to maintain peace and order in the village have been duly made.

Press Note.

Dated 5th April 1950.

Hitherto a holder of land situate in the Mysore State but residing in the Madras State could not transport foodgrains grown on his lands to the place of his residence. As this entailed hardship to such a holder, the Government of Mysore have, with the concurrence of the Government of Madras, empowered the Deputy Commissioners of the Districts in which such land is situate to permit the transport of such quantity of rationed foodgrains from out of the yield of such land as is required for one year or until next harvest, whichever is earlier, for *bona fide* consumption of his family as certified by the concerned authority having jurisdiction over the place in which the holder resides, subject to the condition that he surrenders to Government the entire surplus grains assessed to him. The Harvest Acquisition Order has accordingly been amended.

Dated 6th April 1950.

It was found recently that in some places round about Kankanhalli town there were a few sporadic cases of cholera. This infection seems to be [illegible]

nd the infection continues to persist in the town proper, in Karohalli and a few other villages round about. Over ninety er cent of the population of the town had been inoculated a ew months ago and the second round of inoculations is going n intensively in the town and in the infected villages. The nedical and health staff in the area has been reinforced. The District Health Officer is camping in the town.

The Director of Public Health, the Superintendent, Bureau of Epidemiology, and the District Educational Officer, Bangalore District, visited Kankanhalli yesterday in order to inspect the arrangements made for the adequate protection of the students going to the town for the ensuing Middle School examination. In company with the Vice-President of the Municipality and the local authorities, they saw the places reserved for the housing of the students. It was found that majority of the students will be accommodated in Kariappa High School buildings and the remaining number will be accommodated in the Lingayet Mutt and in another hostel. Special arrangements have been made to post Sanitary Inspectors with necessary equipment and staff at each of the places reserved for the accommodation of the students, in order that they may attend wholly to the sanitation of these places and to inspect the food and water to be given to the students. Trench latrines have been constructed and Gammexyne-spraying has been conducted, wherever necessary, in order to control the fly nuisance. The local doctors have already taken the precaution of going round the villages and inoculating most of the students that are going to Kankanhalli for the examination. Arrangements have also been made to provide boiled water to the students in the Examination hall.

The District Health Officer and other necessary staff will be at Kankanhalli for the duration of the Middle School Examination. The Superintendent, Bureau of Eqidemiology, will also be visiting the place before the examination and camp there, if necessary for a few days to satisfy himself that all arrangements are carried out as instructed.

HEALTH REQUIREMENTS FOR PERSONS VISITING OR LEAVING INDIA BY AIR OR SEA.

The following Note giving the health requirements for persons visiting or leaving India by air or sea, issued by the Ministry of Health, Government of India, is published for general information :—

(a) *For entry into India.*

1. (i) The Government of India have placed no health restrictions on persons entering India by sea or air except in regard to yellow fever. Health documents are not, therefore, demanded in respect of any infectious diseases other than yellow fever from persons who are in transit (irrespective of the nature and duration of transit) or who seek entry into India. All persons are advised in their own interest to be protected against small-pox and cholera according to international requirements and to possess valid certificates of vaccination and inoculation.

(ii) Persons who are infected or suspected to be infected [illegible] plague, cholera, typhus (louse-borne) small-pox, chicken-pox, cerebrospinal meningitis, diphtheria, relapsing fever, influenzal pneumonia or who have been in contact with any such disease are liable to undergo such sanitary measures as may be applicable to them on arrival. In such cases, it may be noted that small-pox vaccination certificate becomes valid 14 days after vaccination and its validity lasts for a period of 3 years; cholera inoculation certificate becomes valid 7 days after inoculation and its validity lasts for a period of 6 months. Cholera inoculation should, however, be taken in two doses with an interval of 7 to 10 days between the two doses and the certificate becomes valid 7 days after the administration of the second dose. The certificate should preferably be obtained from Government or Municipal institution on the prescribed international form duly signed by a medical officer in Government or Municipal employ indicating his designation and bearing the stamp of the office of issue. Certificates issued by private doctors are also acceptable provided they are countersigned by a medical officer in a Government or Municipal institution as indicated above.

Special Provisions relating to Yellow Fever.

(a) Arrivals by air.

2. Any person arriving in India by air is detained in isolation on arrival in India for a period upto nine days after arrival if he has been exposed to the risk of yellow fever infection and is not protected against the disease through a previous attack of yellow fever or by satisfactory inoculation.

(b) Arrivals by sea.

3. The requirements in respect of persons arriving in India by sea are not based on the provisions of the Indian Port Health Rules, 1938, but are observed by the health authorities at Indian Ports.

(b) *For leaving India.*

4. All persons leaving India for a place beyond India by sea or air will be medically examined by the Port Health Officer or the Airport Health Officer concerned. All persons in whom such medical examination discloses symptoms of any of the infectious diseases mentioned in para 1 above will be prohibited from embarking in any vessel or aircraft. Further, all persons in such relation with a person displaying the symptoms of one of the diseases referred to above as to render them liable to transmit the infection in question will be prohibited by the health officer from embarking. These provisions do not, however, apply to a person who is suffering from an infectious disease and who is to be transported in an aircraft specially allocated for the purpose.

5. No health restrictions are, however, applicable to persons travelling by sea or air, exclusively between India and Pakistan, since India is maintaining *status quo* with Pakistan since partition in regard to quarantine restrictions.

Aircraft infected with yellow fever or suspected of yellow fever infection.

(i) An aircraft is regarded as infected with yellow fever if it has started from or alighted in any yellow fever infected area and subsequent to such starting or alighting, has not obtained a certificate of disinsectisation from an authority specifically approved by the Government of India for this purpose, stating that the aircraft, after leaving or alighting in the yellow fever infected area and before arriving in India, has been disinsectised. At present, the following authorities are so approved :—

(a) Ministry of Health of the United Kingdom,
(b) United States Public Health Service.
(c) The Government of the Netherlands,
(d) The Government of the Anglo-Egyptian Sudan,
(e) The Government of Pakistan,
(f) The Government of Egypt,
(g) The British Military Administration, Eritrea,
(h) The Government of Norway.

Pending the completion of certain formalities, the Government of India have also agreed to accord provisional recognition to certificates of disinsectisation issued by the following authorites:—

(a) The Government of Senegal, (Dakar),
(b) The Government of France (Orly, Le Bourget and Marseilles Marignane),
(c) The Government of Switzerland.

CERTIFICATES OF INOCULATION AGAINST YELLOW FEVER WILL NOT BE REQUIRED FROM PASSENGERS FROM A NON ENDEMIC AREA WHO START IN AN AIRCRAFT AFTER AN "APPROVED" DISINSECTISATION AND ARRIVE IN INDIA WITHOUT THE AIRCRAFT HAVING PASSED THROUGH AN ENDEMIC YELLOW FEVER AREA EN ROUTE.

(d) An aircraft shall be regarded as suspected of yellow fever infection, if, not being infected with yellow fever, it arrives in India from the West.

(e) An aircraft infected or suspected to be infected with yellow fever shall, on entering India from a place outside India, land only at Bombay airport, Santa Cruz, provided that this requirement shall not apply to an aircraft which has already obtained health clearance at Karachi Airport.

7. *Provisions relating to yellow fever applicable to persons arriving in India by sea.*

All persons and crew on board a vessel which has started from or has touched at any port on the East Coast of Africa between the Northern-most limit of Eritrea and the Southern-most limit of Tanganyika should be in possession of valid certificates of inoculation against yellow fever. Such inoculations must have been performed not less than 15 days before embarkation in the case of a person—

(i) who is embarking between the said limits, or

(ii) who is inoculated against yellow fever in an endemic area, or

(iii) Who has entered an endemic yellow fever area within 10 days of inoculation.

In all other cases the inoculation must have been performed not less than 9 days before the arrival of the vessel within the said limits. If there is on board a vessel arriving from or touching at any port within the limits mentioned above any person who is not in possession of a valid certificate of inoculation against yellow fever which satisfies these requirements the vessel will be regarded as suspected of yellow fever infection and may be subjected to quarantine measures before pratique is given.

8. *Special provisions (relating to small-pox and cholera) applicable to persons leaving India by sea or air for Iraq, East Africa, South Africa and Saudi Arabia.*

In addition to the medical examination referred to in para 4 of the Note, all persons proceeding to East Africa, South Africa, Iraq and Saudi Arabia are required to be in possession of valid certificates of vaccination against small-pox and inoculation against cholera signed or countersigned by a medical officer in Government or Municipal employ.

In case the sale is not confirmed in the name of the highest bidder, the next highest bidder may be called upon to take up the lease and in that case, he shall abide by all the conditions prescribed herein for the highest bidder. The deposits of the next highest bidders will be retained until the question of confirmation of the sale is decided.

PART VI

PUBLIC ADVERTISEMENTS

OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE, OLD PUBLIC OFFICES, BANGALORE.

Press Note.

Dated 11t April 1950.

An article has been published in the Press complaining that the electrification of Villages around Bangalore has not been taken up expeditiously.

The question of electrification of Villages in the neighbourhood of Bangalore has been engaging the attention of the department. As every one knows, the main Receiving Station of Bangalore is situated in Seshadri Road and power supply to Basavangudi and other areas on the South has been through overheard lines, which were constructed several years ago, to meet a small demand. The demand having exceeded the anticipation during the course of the last few years, the voltage conditions at the tail end of these feeders are most unsatisfactory Attempts by the department to alter these conditions and improve the supply voltages, etc., have not been at the desired rate on account of the lack of materials therefor. However, this work has been taken up during the course of 1949-50 and will be continued during 1950-51 and it is hoped to accomplish this object within the course of a year or so, as concerted effort is being made in this direction. Extension of these feeders for power supply to villages nearby will only result in worsening the voltage conditions to consumers who are already at the tail end of these feeders without any adequate satisfactory power supply to the villages themselves.

Estimates have been prepared for the electrification of these Villages and such of those which could be serviced without seriously affecting the supply voltages to the existing consumers are being sanctioned by Government and are being executed. Further extension to other villages are being examined from time to time and will be taken up when voltage conditions permit. Thus it will be seen that the failure to extend electricity to the neighbouring villages is not due to any other cause but the unsatisfactory voltage conditions existing at the tail-end of long feeders from the receiving station in Bangalore.

It has to be further stated that with the completion of the new Receiving Station in the Industrial suburb and extension of lines therefrom, it will be possible for the department to extend electricity to the villages. This work is on hand and is expected to be completed within the course of a year.

PUBLIC ADVERTISEMENTS

OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE OLD PUBLIC OFFICES, BANGALORE.

Press Note.

Some cart manufacturers and agriculturists have brought to the notice of Government that they are put to considerable hardship on account of the non-availability of iron tyres and other agricultural implements or their non-supply in time to the Multi-purpose Co-operative Societies, and that this also results in retarding of the food production work. On enquiries made in the matter, it is learnt that the Commissioner for Food Production, to whom only a small quota of steel was allotted by the Government of India, had this quota distributed to the agriculturists through the Multi-purpose Co-operative Societies, and that large quantities could not therefore be supplied.

The Government of India have since allotted and arranged for the release of 3,190 tons of iron and steel materials to the State for agricultural purposes for the period I/1950, and it is expected that this allotment will suffice to meet all agricultural needs. Multi-purpose Societies or individual cart manufacturers or other persons, who are interested in obtaining iron materials for agricultural purposes, are hereby informed that they should send their applications to the Commissioner for Food Production for their requirements, instead of to the Controller, Iron and Steel, Bhadravati.

(P.N. No 16–18 4-1950—1601-1700).

Press Note.

FORTNIGHTLY REPORT ON FOOD PRODUCTION FOR THE FORTNIGHT ENDING 31st MARCH 1950.

1. *Weather and Crop Prospects.*—There was no rainfall anywhere in the State during the fortnight.

The standing crops of paddy, Bengalgram, irrigated ragi and sugarcane were reported to be good.

2. *Foodgrains Procurement.*—The following figures indicate the procurement of foodgrains in the State for the fortnight ending 31st March 1950 :—

Paddy.	...	...	1,453,570 pallas
Ragi	...	...	214,045 do
Jola	...	...	35,064 do
Other grains	...	...	5,848 do

3. *Procurement of Oilcake and Fertilisers.*—

Groundnut Oilcake	...	...	135 tons
Superphosphate	...	...	538 do

4. *Procurement and Distribution of Iron and Steel.*—Five hundred and twenty-two tons of cart materials (Tyres and tires, etc.) were received and distributed to all the Taluk and Circle Multi-purpose Co-operative Societies in the State for sale to raiyats.

5. *Kar ragi and Paddy Cultivation.*—The total area prepared and transplanted with ragi, paddy, jola, etc., are given below :—

		Area Prepared Acres.	Area transplanted Acres.
Ragi	...	.....	779
Paddy	...	10,309—0	8,824—33
Jola	...	.....	1,404—0
Bengalgram	...	.....	133 acres.

6. *Lift Irrigation in River Valleys.*—Eighty acres of wish lands have been brought under wet cultivation by installing two irrigation pumps one at Holavanahalli and other at Kyamenahalli in Koratagere Taluk.

In some parts of the State, the standing crops of paddy are reported to be in peril due to scarcity of water since the water level in the tanks has gone low and in some cases the water is completely exhausted. The only course left open is to pump water from the tanks or the nearby wells or "Madus" with the help of diesel engines and electric pumps wherever possible and save the crop. The Deputy Commissioners of Districts have reported that immediate installation of the above water pumps would save the crop to an appreciable extent. This question was also discussed with Sri S. Y. Krishnaswamy, Joint Secretary, Ministry of Agriculture, who was pleased to agree with the importance of this question, and advised the immediate purchase and installation of these pumps wherever necessary.

Accordingly, arrangements have been made for the purchase of 30 (5 H.P.) and 10 (10 H.P.) diesel engines. Of these, 5 (5 H.P.) and all the 10 (10 H.P.) diesel engines have been received and these are being shifted to the places where they are required to be installed to pump water.

At Nilsoge :—One pump is working and is in good condition. The other pump will be fixed as soon as flanged pipes are received. Water is made available for 108 acres out of 410 acres and 100 acres have been ploughed.

At Harihar :—Water is made available for sixty acres.

At Kolihalli (Tumkur District) :—An estimate for Rupees forty one thousand has been sanctioned *vide* Government Order No. P. W. 7753-58—Irn. 155-49-2, dated the 18th February 1950.

7 *Irrigation Wells*:—During the fortnight under report, thirty irrigation wells were completed, twenty-six in Chitaldurg District and four in Kolar District.

8 *Intensive Cultivation Selection of Areas* :—Sixty-eight villages comprising an extent of forty-two thousand acres have been selected in Shimoga District for taking up intensive cultivation.

9 *Co-operative Farming* :—During the fortnight, the Commissioner for Food Production inaugurated the Co-operative Society at Hunsur in Mysore District on 6th March 1950. Fifty members were enrolled. Arrangements have also been made for the demarcation of the lands and ploughing the lands with the help of bull-dozers and tractors.

10 *General*:—Forty-five Gun Licenses have been sanctioned during the fortnight in Shimoga District for the purpose of protecting crops against wild animals.

Sri S. Y. Krishnaswamy, I.C.S., Joint Secretary to the Ministry of Agriculture, New Delhi, came here during the fortnight and examined in detail all the Food Production Schemes of the State Government. Among the several decisions taken to speed up the activities of the Food Production Schemes to achieve the maximum results within the target time, it was agreed that the Deputy Commissioners of each District be given over all powers to grant expenditure up to a limit of Rupees ten thousand, though the expenditure related to other than the Revenue Department. This is expected to yield quick results in as much as the Deputy Commissioner will be able to take action to get some of the important works sanctioned on the spot without waiting for official routines.

(P.N. 17—18-4-1950—1,701—1-80-0.)

MISCELLANEOUS DEPARTMENT.

OFFICE OF THE COMPILER, *MYSORE GAZETTE*.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matters intended for publication in Parts I, II, III, IV, V and VI should therefore reach this office not later than *Monday Evening*, and that for Part II not later than *Tuesday Evening* for the following Thursday's issue of the Gazette. All matters received later than these days will be kept by for insertion in the following issue of the Gazette. (G. O. No. P. 988-1040—P. & S. 12-30-2, dated 26th July 1930.)

2. (i) Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its re-setting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect stating the number of copies should be made at foot of such manuscript.

(ii) Indents for less than 100 spare copies should not be sent to the Press, subject to the exceptions contained in G. O. No. G. 14330-95—P. & S. 5-19-9, dated 23rd December 1919, in regard to notices calling for tenders for the purchase of stores or for the execution of works. When a few copies only are required, they may be made available by the use of carbon sheets simultaneously with the preparation of a copy for the Gazette, as laid down in the above Government Order. (Letter No. G. 10382—P. & S. 9-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.)

(iii) When indents for an unusually large number of spare copies are sent, such instances will be brought to the notice of Government, as per letter No. G. 10382—P. & S. 99-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.

3. Matter sent for insertion in the Gazette will be published *only once* and the abstract in two issues. (G. O. No. G. 2915-6—P. & S. 44-25-2, dated 13th September 1926)

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

Such subscribers will please note that the Gazette cannot be had *in separate parts* at concession rates under any other conditions and that they have to pay the full subscription for the part or parts required.

6. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap will not receive attention; and no communication should be sent on Government Service by private parties.

OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE, OLD PUBLIC OFFICES, BANGALORE.

Press Note.

The Chief Secretary to the Government of Mysore is Indian Arms Act and Rules to residents in Mysore State. The present practice for crediting the fee for both grant or renewal of such licenses has been that the applicant or licensee should credit the same in the Imperial Bank of India, Bangalore. This has caused a lot of inconvenience to the persons concerned.

It has now been decided as a part of Federal Financial Integration Scheme that license fees collected under the Indian Arms Act and Rules would be retained by this Government itself. Persons who wish to credit the license or renewal fee are requested to credit the same in future in any of the District or Taluk Treasuries in the State and produce the chellans to the District Magistrates concerned along with their applications.

It was also confirmed on behalf of Sweden that the recent liberalisation of imports into Sweden from O.E.E.C. countries, had also been extended to imports from India.

3. The discussions between the representatives of the two countries also covered the question of supply and availability in each country of commodities important to the economy of the other and the mutual facilitation of the supply of such commodities.

4. The following are some of the products available from Sweden:—

FOOD PRODUCTION DRIVE IN MYSORE STATE FOR THE FORTNIGHT ENDING 15th APRIL 1950.

Seasonal conditions were very unfavourable. There has been no rainfall and the summer crops have suffered considerably. The level of water in the Krishnarajasagar Reservoir has gone down considerably and this has very seriously affected the summer ragi and paddy campaign in Mandya District where excellent results were achieved last year. Even in other districts the tanks have dried up and the paddy crop is withering. The total area so far transplanted under paddy, ragi and jola in water receded areas is noted below :—

		Acres
1	Summer Ragi	995 00
2	Summer Paddy	10,169 00
3	Jola in water receded areas	1,303 00
4	Bengal Gram	133 · 00

With a view to giving immediate assistance to raiyats to irrigate the standing crop of paddy and ragi, arrangements were made for the purchase of 40 Diesel Engine sets. These have been taken delivery of and issued to the raiyats on hire. The demand for the pumps having increased enormously, orders have been placed for another forty sets. These are all purchased from the loan sanctioned by the Government of India for the purchase of Electric Pumps and Diesel sets.

The two lift irrigation works, one at Nilasoge and the other at Harihar, were completed and water is being pumped for irrigation. About 100 acres are brought under cultivation.

The works under construction of big tanks, restoration of minor tanks, deepening of tanks by desilting, improvements to tank and river channels, etc., are in rapid progress.

About 107 acres of marshy lands have been reclaimed in Shimoga District and the Visvesvaraya Canal area during the fortnight.

The Special Chief Engineer has issued instructions to all the Executive Engineers to expedite the works connected with the Irrigation Department.

The Revenue Commissioner in Mysore, Bangalore, has been regularly reviewing the statement of progress made in the disposal of land under the Grow More Food Campaign. It has been observed that out of the total extent of 3,01,060 acres of lands granted from the commencement, an area of 58,092 acres was cancelled since they were not brought under the plough and an extent of 20,400 acres of land were brought under the plough to the end of November 1949. He has instruct all the Deputy Commissioners of Districts to see that the lands granted are actually brought under the plough [illegible] enforcing the conditi[illegible]

reports that sanction has been accorded for the appropriation of 17,546 acres and 6 guntas of dry land and 387 acres and 34 guntas of irrigable dry land in that District and instructions have been issued for the speedy disposal of the dry lands free of upset price to the landless depressed classes and at reasonable upset price to the poor and landless persons other than depressed classes. The irrigable dry lands will be disposed of in auction in blocks of 2 acres.

Similarly, the Commissioner for Rural Development has reviewed the progress of work achieved in the manufacture of compost manure and has stressed the importance of this work.

With a view to make available manures in large quantities, permission has been granted to issue double or even treble the prescribed dosage, wherever raiyats demand a higher dosage. As the stock position is also good, these measures have been taken to prevent the stock being subjected to weevils, etc.

Co-operative Farming.—Two places in Chitaldrug (Arehalli Kaval and Vanake Maradi Kaval in Holalkere Taluk) have been selected for starting co-operative farming. Action is being taken to register the Societies and enrol members and to complete all the preliminaries before the 25th April and another Co-operative Farming Society has been registered in Aspathre Kaval in Hunsur Taluk.

Agricultural operations in the kavals will be taken up after the first showers.

During the fortnight, the Commissioner for Food Production in Mysore toured in Tumkur and Chitaldrug Districts and appealed to the Raiyats to grow more food by availing themselves of the various facilities afforded by Government. Thirty gun licenses have been sanctioned during the fortnight for protecting crops from wild animals.

Four hundred and seventy-one tons of M. S. flats and other part materials were procured and distributed among all the multi-purpose co-operative societies for supply to agriculturists, during the fortnight.

Press Note.

Dated 27th April 1950.

The public are hereby informed that due to the failure of South-West and North-East Monsoons last year, the Krishnarajasagar Reservoir which supplies water for power generation at Sivasamudram and Shimsha has failed. Anticipating certain reduction in the supply of water from this Reservoir for power generation, the Department took necessary action to make Jog Power available to Mysore City and surrounding areas, thus reducing the discharge at Sivasamudram from 1300 cusecs to 960 cusecs. This was achieved by releasing the load on the two generating stations, namely, Sivasamudram and Shimsha to the extent of about 10,000 kw. with effect from 20th December 1949. It was hoped that from the contents of the Reservoir supplemented by the inflow in the Cauvery and Kabini valley from the usual freshets during March and April, it would be possible to maintain a discharge of 960 cusecs as measured at Shivasumudram and carry the normal load that was imposed on the two stations.

Unfortunately, as everybody knows, the freshets also have failed with the result that it has not been possible for the Department to meet the usual demand in Bangalore and Kolar areas. Hence, the power installations rated above 50 H.P. have been imposed a cut of 33-1/3 per cent of their normal consumption. An examination of the water supply condition in the river reveals that even this cut for installations rated above 50 H.P. is not adequate to meet the situation. Therefore, it has been found necessary to impose a cut on all power installations that are served in this area. The department has issued notices to all power consumers to kindly co-operate with the department and reduce their consumption by 33-1/3 per cent, by which it is hoped that we will be able to carry on with the remaining load till the monsoons set in.

While the department and Government are anxious to see that no inconvenience is caused to power consumers who are supplied with power from Sivasamudra and Shimsha, it will be appreciated that the failure of the supply of water in the Cauvery River due to the failure of rains is an act which is beyond the control of the department. In order to tide over this critical situation, the consumers are earnestly requested to co-operate with the department inspite of the inconvenience that might be caused to them. The public and the consumers of power are hereby assured that every effort will be made to restore the cut immediately the water supply condition in the river improves.

In this connection, it may be mentioned that while drastic cuts are being applied on all power consumers, essential requirements, like the requirements of water supply, domestic consumption including lighting and heating are being complied with to the maximum extent possible. It may further be added that no fears need be entertained regarding failure of water supply to Bangalore due to failure of electricity, as even if no water flows in the river Cauvery, power supply to water-supply pumping sets to the extent possible and practicable will be made available from Jog Power supply through Mysore and Sivasamudram.

SPECIAL RATIONS REQUIRED FOR PUBLIC FUNCTIONS, CONFERENCES, ETC., IN THE STATE.

Applications for special rations are, of late, being received in very large number from Organisers of Conferences proposed to be convened in the State, for various objects, while the requirements of rations for free-feeding in connection with examinations and religious and other functions are also on the increase. There is, besides, the additional commitment on account of the influx of refugees into the State and of the observed tendency for persons in rural parts managing somehow to attach themselves to urban rationing. At the same time, the position as to supplies of rationed articles is getting to be some what acute due to several factors, not the least of which being the non-compliance on the part of the Central Government to step up ceiling quotas to the State this year to cover our over-all deficiency in foodgrains. It is, in the circumstances, very necessary to conserve our resources by minimising the issue of special rations as much as possible. This is also in accordance with the austerity measures, which cannot perhaps be said to be as strictly enforced now as may be desired. Government will, therefore, be constrained to refuse requests for special rations which may be made in connection with the various meetings and Conferences in the State and also permission required under austerity rules, except on condition that no supply of rations will be made. Organisers of Public Functions, Conferences, Poor-feeding, etc., are therefore cautioned that, for any activities which they may undertake, they should depend on their own resources, as the Food Supplies Department will be unable to comply with requests for special rations.

Government have raised the ban on the export of long chillies from Chitaldrug and Shimoga Districts only as a temporary measure till the end of May 1950 as stocks of this commodity were reported to have accumulated both with growers and merchants in these two districts.

Press Note.

A meeting of the principal employers of labour and officers of the labour department was convened in the Chambers of the Hon. Minister for Law and Labour this morning. The problem arising out of the out in electric supply was considered at the meeting and it was generally agreed that during the period that workers were played off for want of electric power, they should be given half wages and half dearness allowance. Such of the workers as were entitled to and desired to take advantage of the provisions under the holidays with Pay Act should be allowed to do so. The option to do so, it was agreed should be with the worker himself. This is to take effect from Monday the 8th instant and is to be in force till such time as it is altered. The whole position will be reviewed again in the middle of June next. This concession granted is *ex gratia* and is not to be treated as a precedent.

Press Note.

FOOD PRODUCTION DRIVE FOR THE FORTNIGHT ENDING 30th APRIL 1950 IN MYSORE STATE.

There is absolutely no hope of rescuing the standing crops of summer ragi and paddy under the Krishnarajasagar Reservoir. The low water level threatens to affect the ensuing monsoon crop as well. Cultivation operations and sowing of green manure seeds has not been possible in Srirangapatna, T.-Narasipur, French-Rocks and other Taluks. This will naturally affect the regular monsoon paddy crop. The general outlook is grave and unless we receive showers immediately, the food situation will deteriorate seriously.

With a view to rescuing as much of the standing crops of paddy and ragi as possible by installing water pumping sets to irrigate paddy crops by pumping water from wells, *madus*, etc., wherever possible, sixty Diesel oil engine sets have so far been purchased and rushed to the affected areas to save the standing crops. In spite of the best efforts, more than 5,000 acres of paddy and ragi have dried up.

The total area transplanted with summer ragi, paddy and jola in water receded areas up-to-date is as follows:—

Kar Ragi	...	...	1,776	acres
Kar Paddy	...	...	10,696	"
Jola	...	...	1,303	"
Bengal Gram	...	...	133	"

Two hundred and four irrigation wells were completed in four districts and a sum of Rs. 1,96,480 was disbursed to the raiyats.

Two thousand three hundred and ninety-five acres of new lands were granted to raiyats for cultivating food crops in four districts.

Three more Collective Farming Colonies have been started. Tractor service has been given to plough up the lands before the monsoon rains set in and other cultivation operations taken up, on collective basis.

A Conference of Planters held under the presidentship of the Deputy Commissioner, Hassan District, discussed the possibility of Tapioca cultivation, in the malnad areas of Hassan District and it has been resolved to cultivate at least 300 acres of Tapioca this year in that district under the supervision of a qualified Agricultural Inspector.

Government have recently sanctioned an estimate amounting to Rs. 1,30,000 for Lift Irrigation on the left bank of Shimsha in Maddur Taluk. The Superintending Engineer, Cauvery Circle, has been requested to push through the work expeditiously. One new work has just started in Honnali for Thungabhadra River to irrigate 70 acres.

In Tumkur District, four big works which are intended to benefit 4,091 acres of additional lands are under various stages of progress. In the case of Honnamachanahalli Tank in Kunigal Taluk, the entire area of 800 acres will be brought under irrigation before this monsoon season.

The two works taken up in Bangalore District are in progress and may be completed soon. All the Executive Engineers have been requested to draw up a comprehensive programme for desilting of tanks.

In Tumkur District, two works are taken up which benefit an area of 70 acres.

Some plots in the acquired area near the Birwal Colony have been allotted to the labour class employed at the above works for the cultivation of kar ragi. Nearly 50 acres of lands have been ploughed and fifteen acres have been transplanted with ragi.

Eight hundred and thirty-two tons of iron and steel (cart materials and flats required for country plough points) were procured and distributed to all the Multipurposes Co-operative Societies; 89 tons of groundnut oil cake and 2,000 tons of ammonium sulphate were procured and distributed to the above societies.

The following quantities of foodgrains were procured during the fortnight :—

Paddy	31,545	pallas
Ragi	44,613	"
Jola	599	"
Other grains	311	"

To prevent damage to crops by wild animals, 35 more gun licences were sanctioned in Shimoga District, bringing the total sanctioned from the beginning of the year to 684. There was stray occurrence of paddy stem-borer in Bangalore District, case-worm in Tumkur and Mysore Districts and blast in Tumkur District. Total area affected is less than 200 acres and timely preventive action has been taken by the Department of Agriculture.

CONTROL OF THE DISTRIBUTION AND SALE OF ARMS AND AMMUNITION IMPORTED FROM ABROAD.

The Government of India have adopted for Part A and C States a scheme for the control of the distribution and sale of arms and ammunition imported into India from abroad. According to this scheme, monthly quotas of imported arms are allocated among the part A and C States. The Government of India are considering the extension of this scheme to Part B States, which includes Mysore also.

In the meantime, licensed dealears and individual licensees in this State may obtain their requirements of arms from importing firms in Part A and C States to whom quotas are allotted. Particulars showing the quotas of arms allotted to the firms in Part A and C States have been sent to the District Magistrates of Districts and the dealers and licensees in the State may obtain the information from the District Magistrates.

The procedure in this regard is briefly as follows:

Importing firms in Part A. and C. States are required to report particulars of their monthly imports to the Government of India. On receipt of complete information, quotas are allocated each month to Part A. and Part C. States. These allocations run into four well-defined periods:—

(1) During the first period, the arms are available for sale to dealears or license-holders in the States to which they are allocated. (2) During the second period, the unlifted quotas become available for sale in the States in which the importing firms are situated. (3) During the third period the arms which remain over from the first two periods become available for sale to dealers in all the States including Part B States and also to individual licensees within the State of import who hold purchase permits in the States in which the importing firm is situated and (4) During the fourth period the arms still remaining unsold are made available for sale in any State in India including Part B States without purchase permits.

Thus the licensed dealers and individual licensees in the State may obtain their requirements of arms from importing firms in Part A and C States during the third and fourth periods of allocation. Prospective purchasers may approach the importing firms mentioned in all allocation orders, copies of which have been sent to the District Magistrates.

Such of those persons who want to import arms into the State should hold licenses issued by this Government under the Indian Arms Act and Rules.

Press Note.

CURTAILMENT OF POWER SUPPLY.

The Chief Electrical Engineer in Mysore has notified to power consumers informing them that the slight improvement in the supply of water that appeared in the Cauvery Valley during last week has not been kept up and that, unfortunately, there have been no rains during the whole of the last week with the result that the increased flow has dwindled and the condition is worsening day by day. He has stated that with the available water in the river, it is not possible to generate enough power at Sivasamudram and Shimsha to meet all the demand. He is therefore compelled to re-introduce curtailment in the supply of power to all industrial concerns. He has requested them kindly to arrange to effect, during this week, a 50 per cent cut in the consumption of energy based on the normal consumption during March. Smaller installations who have no meter will be disconnected on alternate days as was being done about two weeks back. The present curtailment will come into effect from the midnight of the 22nd May 1950.

The difficulty to be experienced by power consumers due to this curtailment is appreciated, but it is due to causes beyond the control of the Electrical Department. It is requested that the consumers of power will kindly extend their co-operation in effecting this cut, so that with the available power the essential services may be maintained and the remaining distributed equitably among all the consumers.

FESTIVALS AT PURI DURING 1950.

The following Press Communique issued by the Public Relations Department, Government of Orissa, is re-published for general information :—

"The Snan festival at Puri will be held on 31st May and the Nabakalebar, the Car and the Return Car Festivals will be held during the period from 16th July to 31st July 1950. It is anticipated that larger number of pilgrims than usual will visit Puri on these occasions. As cases of Cholera are being reported from various quarters of this State, it is apprehended that the disease may assume epidemic proportions during the festival period and spread far and wide if necessary precautions are not taken sufficiently beforehand. In order to safeguard the health of the pilgrims and the public in general against this dreadful disease, arrangements have been made to give anti-cholera inoculation, free of charge, by the Medical and Public Health staff of Government and local bodies at important Railway Stations, Bus Stands and along lines of communications, hospitals and dispensaries and other convenient centres in the districts and towns of the State. The anti-cholera inoculation has been made compulsory. It is also being arranged to make it incumbent on the passengers for Puri to produce the inoculation certificate at the Booking Office in order to be eligible to obtain the required railway tickets.

Intending pilgrims are requested to get themselves inoculated against cholera and to obtain a certificate to that effect which will be given by the inoculating officers, free of charge.

The keepers of lodging houses and dharmasalas have been instructed not to admit persons who cannot produce the certificate of being inoculated with anti-cholera vaccine not later than 1st April 1950.

The intending pilgrims are hereby warned that they have to run a great risk if they attend the festival without being protected from cholera."

(P.N. No. 48—29-5-50—4,801-900).

PUBLIC ADVERTISEMENTS

OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE, OLD PUBLIC OFFICES, BANGALORE.

Press Note

Dated 31st May 1950.

HEALTH OF LIVESTOCK DURING APRIL 1950.

In their order of severity, outbreaks of Rinderpest, Black-quarter, Foot and Mouth, Anthrax, Hæmorrhagic-septicæmia, Contagious-gout, Pleuro-pneumonia, Sheep-pox, Ranikhet and Rabies were encountered in the State during April 1950. Rinderpest was encountered in Arkalgud Taluk of Hassan District. Altogether 279 villages were reported to have been affected by one or the other of the contagious and infectious diseases, as against 348 villages during the previous month. The number of outbreaks was highest in Kolar, Bangalore and Chitaldrug Districts, while Mandya, Shimoga and Chikmagalur Districts were least affected. These diseases accounted for 1,751 attacks of which 787 succumbed, as against 3,392 attacks and 689 deaths during the previous month.

The departmental staff undertook 28,725 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease, as against 28,359 inoculations and vaccinations during the previous month. In the absence of a reliable method of vaccinatory intervention, other prophylactic measures were adopted against Foot and Mouth disease.

Diseases caused by internal parasites were reported from 136 villages resulting in 69 deaths, as against 199 villages accounting for 119 deaths during the previous month. The special staff attached to the parasitic disease control units and the Sheep Breeders' Associations of the Department dosed 11,189 animals, as against 13,328 animals during the previous month.

The rest of the livestock remained free from diseases during the month, and fodder and water were generally available throughout the State.

POWER SUPPLY TO CONSUMERS OF ELECTRICAL ENERGY.

As the public are aware, the enforced cut on power supply on industrial installations has been restored fully from the morning of Sunday the 4th June 1950. Unrestricted power supply is being made available to all installations throughout the State. In as much as the flow in the Cauvery and Kabini has improved considerably and indications are that the south-west monsoon has set in, it may safely be stated that the power position has improved.

Due to failure of monsoon last year and complete failure of pre-monsoon rains during March and April, the flow of water in the Cauvery and Kabini dwindled considerably. By the end of north-east monsoon last year, it was apparent that the Reservoir would not be able to meet the usual demand both for power and irrigation. In order to reduce the demand for power purposes on the limited resources of the Reservoir, the Department arranged to make Jog power available to areas served from the Receiving Station at Mysore City. Thus the discharge, as measured at Sivasamudram, was reduced to 960 cusecs with effect from 29th December 1949 against 1300 cusecs that had to be maintained, if the two generating stations, *viz.*, Sivasamudram and Shimsha, were to meet the demand of Mysore, Bangalore and Kolar Gold Field. By the use of 960 cusecs of water, it was possible to meet the normal full demand of Bangalore and Kolar Gold Field Areas, feeding Mysore area from Jog power. Even though the flow in the two rivers, *viz.*, Cauvery and Kabini, dwindled, the above load was carried by the two stations with the hope that freshets would come in and would last till the monsoons set in. Unfortunately these expectations did not materialise with the result that a cut in power supply in the two areas served by Sivasamudram and Shimsha had to be effected.

Accordingly, on the 21st April 1950, a small curtailment was effected to suit the conditions of water flow in the river as mrasured at Sivasamudram. From 24th April to 30th April, 33-1/3 per cent cut was imposed in the case of large installations. Even then, the expected freshets did not come and the water flow conditions in the two rivers worsened with the result that, from the 1st May to 8th May, fifty per cent cut was imposed. The conditions grew worse and a notification was issued curtailing power supply by 75 per cent from 9th May onwards. Fortunately a little improvement occurred in the flow in the Kabini and the 75 per cent cut announced was not brought into effect, but the 50 per cent cut had to be continued. Between 11th and 12th May a few rains in the catchment area of the Kabini brought in fresh water, which had to be allowed to flow on to Sivasamudram, as there was no place for its storage. In order to utilise this water fully, the consumers of power were requested to put in full load with effect from 13th May till the water in the river lasts. This lasted till the 23rd May 1950. Again the drought continued and demanded a curtailment of power supply by 50 per cent, which was given effect to from 23rd May to 3rd June, both days inclusive. Due to improvement in the flow of water in the Kabini river, the cut was restored and all the power installations were requested to resume full load with effect from the morning of Sunday the 4th June 1950.

In this connection, it may be mentioned that even though very limited quantity of water was available in the Cauvery, as measured at Sivasamudram, it was possible to carry 50 per cent load in these areas by making elaborate arrangements for delivering Jog power to consumers in Chikballapur, Dodballapur, Tumkur, Goribidnur, Chennapatna, Kankanhalli, Hindustan Aircraft and Tippagondanahalli Pumping Station, and also a part of Civil Station served by the 'C' Station situated near the Cantonment Railway Station was supplied with Jog Power. In short, the demand on the two stations, *viz.*, Sivasamudram and Shimsha, was reduced to a minimum by supplying to the maximum extent possible and practicable from Jog.

Briefly, the cut was started on the 21st April and ended by 3rd June 1950, *i.e.*, for a period of 44 days, in which 33 1/3 per cent cut was effected for a period of 10 days, for a period of 9 days the cut was resorted fully and during the balance of the period of 25 days, the 50 per cent cut was enforced. Kolar Gold Field Mines had to be completely shut down for only two days, *i.e.*, on the 31st May and 1st June.

The curtailment to the extent of 50 per cent in some cases was found necessary, as power for essential requirements, such as water supply, domestic consumption, etc., had to be fully met.

In this connection, the Electrical Department wishes to express its appreciation of the ready and willing co-operation of the consumers of power exhibited during the most difficult times we have passed through during the above period.

NATIONAL TREE PLANTING WEEK.

On several occasions in the past, the need for planting trees, whose value in the general economy of the country is of the utmost importance, has been often stressed on the people. It has been usual in this State to commemorate important State festivals like the Birthday of His Highness the Maharaja or the Dasara by planting trees through the agency of the children in schools, students in colleges, scouts, joint action of officials and non-officials alike in the rural areas, etc. In spite of this, however, there has been a good deal of denudation of trees from the hill sides and plains alike leading not only to erosion of the soil but to progressive diminution of rainfall and general deterioration of climatic conditions. It has been felt that special attention should be devoted to arrest this tendency. Last year, in response to a call from the Government of India, a special planting drive was undertaken. Liberal prizes were offered to Panchayets which planted the largest number of trees. The planting season was fixed from July to August and more than fifteen lakhs of seedlings were planted all over the State. Village Panchayets, Municipalities, Sanitary Boards, Rural Development Committees, Boy Scouts and Seva Dals, and students of Educational Institutions, all took part in this campaign. It is unfortunate that for lack of adequate rainfall and sometimes on account of neglect, many of the plants did not come up. But what was achieved represents a substantial progress.

The Government of India have now made a special appeal that this Planting Season may be observed by an intensive drive for planting of trees all over the country. It has been pointed out that trees are of the utmost importance in the national economy, firstly, because they are of great value in securing adequate rainfall and proper climatic conditions, secondly, preventing erosion of the soil, thirdly providing many economic benefits to the people by way of fruits, flowers and timber, fourthly, because they play a vital part in the cultural life of the Nation. The wanton destruction of the vegetable cover of the soil has to be stopped at once and the conscience of the people awakened regarding the incalculable value of plant growth and the great danger caused by its denudation.

Experience has shown that while it may not be difficult to secure planting of trees on a large scale, the most difficult portion of the work is their maintenance. Proper arrangements have to be made not only for timely planting but for

and by watering during the hot weather. It will be a waste of effort if large-scale planting is done without adequate measures for maintenance.

The Government of India have, therefore, desired that planting should be started in the first week of July and that the period should be observed as the National Tree Planting Week. The Festival which should be celebrated all over the country will hereafter be an annual feature, and a suggestion has been made that it should be called "Vanamahotsava."

The Government of Mysore have already taken steps on 27th April 1950 to inaugurate a "Tree Planting Campaign" from 1st July 1950. Arrangements have been made to provide seedlings, plants, etc., to the Deputy Commissioners of Districts for distribution in rural areas and even grafted fruit and other plants have been arranged to be supplied at cost price. Liberal rewards have been offered to Panchayets and individuals, who plant the largest number of trees in the districts and a sum of Rs. 10,000 has been allotted for the purpose. Reports have been received that arrangements for digging pits, etc., have already commenced. A special appeal has been made to educational institutions, Seva Dals, Scouts and other organisations to take part in the campaign and plant as many trees as possible and maintain them. Officers of the Horticultural, Agricultural, Rural Development and Forest Department, have been requested to co-ordinate their efforts and to make arrangements for the selection of suitable plots for planting, give instructions regarding the kind of seedlings to be planted, to arrange for their transport and supervise and guide the planting work. Instructions have also been issued to the Public Works Department Officers to undertake planting of avenue trees on both the sides of the roads, river and tank channels. Government appeal to the public to co-operate in this campaign and arrange for as many trees as possible being planted not only in the compounds of Government buildings, court houses, etc., but also in the compounds of private bungalows, gardens, village panchayet yards, tank contours, village waste lands, canal banks, roadside and railway lands and most of all in the fields of the cultivators themselves. It has to be stressed in this connection that even more important than planting of the trees is their maintenance. After-care and protection till the trees are mature enough to be beyond the reach of damage by cattle is of the greatest importance. Tree guards made out of thorns provide cheap and effective means of protection.

The Government of Mysore trust that the public will co-operate in making the celebration of the "Vanamahotsava" in July 1950 a great success. All officers and Development Committees will pay special attention to this work. Officers concerned will take special measures to establish seed stores and nurseries for the distribution of seed and seedlings wherever necessary. Heads of Departments and other officers at district and taluk levels may form small committees to help in the work if necessary. Reports of progress in this work should be submitted periodically to Government through the Commissioner for Rural Development. It is hoped that planting trees this season will reach a new record figure, and serve as a landmark in national conservation.

Pneumonia, and that the allegations that appeared in the Press at that time regarding the cause of her death had not been substantiated.

Although the enquiry proved that her death was due to natural causes, it was noticed by Government that certain irregularities had been committed on matters of procedure etc. Government have after due consideration ordered that disciplinary action be taken against some of the concerned officers.

It is not true that any fresh enquiry has been ordered.

SUBJECT: KANNADA TYPEWRITER.

The question of devising a suitable Key-board for a Kannada Typewriter has been engaging the attention of several patriotic workers for years past but definite results have not been achieved so far. Considering the urgent importance of a Kannada Typewriter for the Karnataka country as a whole, the Government of Mysore have recently appointed an expert Committee for examining the question in all its aspects and recommending a standard key-board. As it is essential that the key-board should be common for the typewriter and the Lino-type (Printing) Machine, and as it is not feasible to provide for all the primary letters, subsidiary forms, figures and other symbols at present in vogue, the Committee has been asked to go into the question of reform of Kannada script and embody in the proposed key-board such reforms as may be found to be inevitable.

The committee has held four sittings so far, examined certain gentlemen who have designed their own key-boards and taken note of the investigations that have been conducted difficulties encountered, and progress achieved so far. Some of the gentlemen who have interested themselves in Script Reform have also been examined and it is proposed to invite a few more to tender evidence on the subject. The Committee is not aware of the addresses of yet others who are interested in these matters and requests that interested gentlemen may please favour the Committee with such information as may be useful in formulating proposals that will soon result in meeting the need for a Kannada typewriter.

As final recommendations are expected to be sent up to Government early, intending gentlemen are requested to contact forthwith either the Chairman of the Committee (Sri. T. T. Sharma, Diagonal Road, Visveswarapuram) or its Secretary (Sri S. G. Narasimhaiya, Assistant Secretary to Government, Old Public Offices, Bangalore).

Subject:—Extension of the Central Industrial Disputes Act, 1947, to Mysore.

The Industrial Disputes (Appellate Tribunal) Act, 1950 which received the assent of the President on 20th May 1950, extends to the whole of India except the State of Jammu and Kashmir.

It provides for the constitution of a Labour Appellate Tribunal by the Government of India to deal with appeals from the decisions of industrial tribunals, courts, wage boards and other statutory bodies set up under the Central and State enactments for the adjudication of industrial disputes. Appeals will be preferable on questions of law, irrespective of the subject matter of the dispute, but on matters of fact only in certain matters.

The Act also makes certain incidental changes in the existing law, Central as well as State, relating to industrial disputes, pending the enactment of the Labour Relations Bill, 1950, by the Parliament.

The Act also extends the Central Industrial Disputes Act 1947, to all Part B States except the State of Jammu and Kashmir.

So far as Mysore State is concerned, the provisions of the Mysore Labour Laws, in so far as they relate to industrial disputes, and to the extent of their repugnancy with the Central laws, have become void and inoperative.

The Government of Mysore have already constituted an Industrial Tribunal under the Central Industrial Disputes Act, 1947, as extended to Mysore and have referred a number of industrial disputes for adjudication.

Certain important changes have been made in the Central Industrial Disputes Act, 1947. The more important of these are :—

1 Section 33 as modified, prohibits the discharge or punishment whether by dismissal or otherwise, of any workman during the pendency of conciliation, or adjudication proceedings without the express permission in writing of the Conciliation Officer, Board, or Tribunal.

2 Section 33 A enables an employee aggrieved by an act of contravention of Section 33, to lodge a complaint with the Tribunal and empowers the Tribunal to deal with the complaint as if it were a dispute referred to, or pending before it.

3 Awards of Industrial Tribunals have been made automatically binding on the parties on the expiry of thirty days from the date of their publication, and where there is no provision for publication, from the date of making the award or decision.

4 Awards of an Industrial Tribunal under the Central Act shall continue to be binding on the parties even after the stipulated period of operation, until a period of two months has elapsed from the date on which notice is given by any party bound by the award to the other party, or parties intimating its intention to terminate the award.

5 Any money due from an employer, or the cash value of any benefit which is capable of being computed in terms of money, under an award or decision of an Industrial Tribunal appointed under the Central or State Act is recoverable as arrears of land revenue, or as a public demand by the appropriate Government on an application made to it by the person entitled to the money. Industrial Tribunals under the Central Act have also been empowered to award at their discretion, costs of, or incidental to, any proceedings before them and such costs are recoverable in the same way.

6 The right of representation of parties by legal practitioners in proceedings under the Central Act has been restricted to proceedings before a Tribunal and that too only with the consent of the other party and with the leave of the Tribunal.

It is hoped that representatives of employers and employees will take note of the changes brought about by the extension of the Central Act to the State.

MISCELLANEOUS DEPARTMENT.

OFFICE OF THE COMPILER, *MYSORE GAZETTE.*

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matters intended for publication in Parts I, II, III, IV, V and VI should therefore reach this office not later than *Monday Evening*, and that for Part II not later than *Tuesday Evening* for the following Thursday's issue of the Gazette. All matters received later than these days will be kept by for insertion in the following issue of the Gazette. (G. O. No. P. 988-1040—P. & S. 12-30-2, dated 26th July 1930.)

2. (i) Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its re-setting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect stating the number of copies should be made at foot of such manuscript.

(ii) Indents for less than 100 spare copies should not be sent to the Press, subject to the exceptions contained in G. O. No. G. 14330-95—P. & S. 5-19-9, dated 23rd December 1919 in regard to notices calling for tenders for the purchase of stores or for the execution of works. When a few copies only are required, they may be made available by the use of carbon sheets simultaneously with the preparation of a copy for the Gazette, as laid down in the above Government Order. (Letter No. G. 10382—P. & S. 9-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.)

(iii) When indents for an unusually large number of spare copies are sent, such instances will be brought to the notice of Government, as per letter No. G. 10382—P. & S. 99-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.

3. Matter sent for insertion in the Gazette will be published *only once* and the abstract in two issues. (G. O. No. G. 2915-6—P. &. S. 44-25-2, dated 13th September 1926).

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. As per G. O. No. E. 1892-1902—P. & S. 12-23-1 dated 8th December 1923, and G. O. No. 5139-95—P. & S. 52-30-1, dated 12th November 1930, the English or the Kanarese portion of the *Mysore Gazette*, consisting only of the five Parts, *viz.*, I, II, III Section 1, III Section 3, IV and V taken together or an entire copy of the English or Kanarese Gazette containing all the parts will be supplied only to Patels, Nad-Patels, Shanbhogs and Sheikdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time or that he is on leave for a period not exceeding three years. Such subscribers will please note that the Gazette cannot be had *in separate parts* at concession rates under any other conditions and that they have to pay the full subscription for the part or parts required.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such money should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.
